New Found Friends

Foster Care Info Sheet

New Found Friends Foster Carers are the backbone of our being able to Rescue. They are the people that open their homes, their hearts, and give countless hours to rehabilitate, train and love the dogs/cats that sometimes have been dealt the worst life has to offer. Foster carers are our unsung heroes, supporting New Found Friends Rescue and enabling us to continue our work to try and help just one more dog or cat.

No one can put a price on the understanding, compassion and dedication that is shown by Carers to their charges. Carers are the people that are faced with dogs and cats that may have been abused, physically and/or mentally. To 'deal' with an animal that has been abused, one has to show compassion, patience and give a lot of time to that dog or cat so that it may recuperate. It is amazing to see their will to live and to watch as they learn to trust again, once they have experienced the LOVE of a Foster home, the place where the word 'safe' again becomes part of their world before being adopted into their "forever home".

New Found Friends foster carers can be guaranteed 24/7 support, access to 2 major Vets in Ballarat and Geelong, A dog behaviourist and a substantial support network.

New Found Friends is more than just a Rescue it's a Family of likeminded people working together to help save lives.

If you you have questions, please do not hesitate to contact Samantha Eastman on 0419 111 178 or newfoundfriends@netspace.net.au

Thank you,

Sam Eastman
